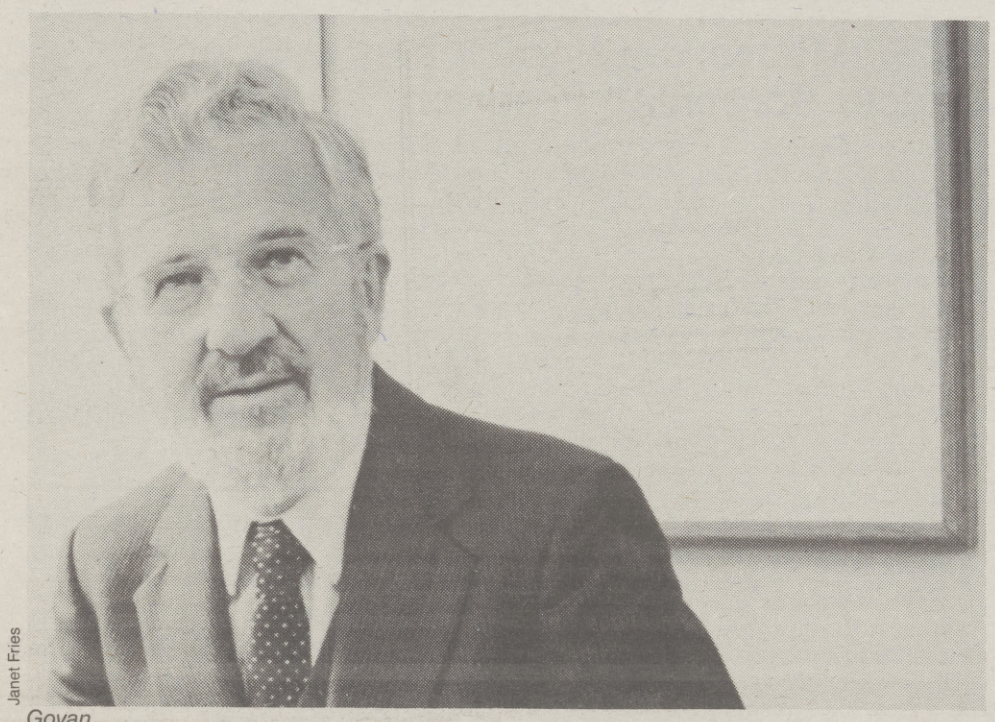
Two-Day Celebration to Honor Dean Goyan's 20th May 15-16



Janet Fries

Goyan

The entire campus community is invited to honor School of Pharmacy Dean Jere Goyan at a symposium marking his 20th year as dean on Friday, May 15, in Cole Hall beginning at 1 p.m.

Entitled "Issues in Health Education, Health Research, Health Care and Government," the symposium will recognize his exceptional leadership both in his role as dean and as head of the FDA from 1979-80.

The symposium is on topics that reflect areas in which Goyan has had considerable national impact over the last several years. Uwe E. Reinhardt, PhD, James Madison Professor of Political Economics at Princeton's Woodrow Wilson School of Public and International Affairs, will discuss the economics of health care; Robert G. Petersdorf, MD, president of the American Association of Medical Colleges, will discuss health education and research; David W. Martin, Jr., MD, vice-president for research at Genentech, Inc., and UCSF adjunct professor of medicine, biochemistry and biophysics, will talk on science and research. Government and health will be the fourth topic. Chancellor Krevans will open the sessions.

On Saturday, May 16, at UCSF-Laurel Heights, School of Pharmacy faculty, staff and alumni will honor Goyan's contributions to the School as part of their annual alumni get-together.

At an alumni symposium Saturday afternoon, George Kenyon, chair, pharmacuetical chemistry; Leslie Z. Benet, chair, Department of Pharmacy; and Eric T. Herfindal, chair, Division of Clinical Pharmacy will discuss the state-of-the-art-science occuring in their own departments. This will be followed by a demonstration of the applicability of computer graphics to biological research by Robert Langridge, head of the UCSF Computer Graphics Laboratory.

A colleague from Goyan's FDA years, Jerome Halperin, former deputy director, Bureau of Drugs, will talk about the dean's contributions as commissioner. A reception and dinner will follow at the Mark Hopkins Hotel.

For information on the May 15 campus-wide symposium call Associate Dean Robert Day at x62482; for the May 16 Alumni Association symposium and dinner, call x64723.

First UCSF "Human Survival" Lecture May 18 Deals with Nuclear War

The first annual Distinguished Lecture in Health Science and Human Survival will take place on campus Monday, May 18, at 8 p.m. in Cole Hall. This new program is the first of its kind in an American medical school.

Alexander Leaf, professor and chair of the Department of Preventive Medicine and Clinical Epidemiology at Harvard, will discuss "Nuclear Survival? What You Haven't Heard Yet." Major recent findings on the biomedical effects of radiation and on ecological effects of nuclear explosions still have not reached public attention. Leaf will discuss these latest findings, including how even moderate doses of radiation often suppress immune system functions.

This new lecture series, directed by UCSF senior anthroplogist Christie W. Kiefer, PhD, will explore large-scale threats to human populations. It will bring distinguished scholars to UCSF each year to speak on such man-made threats as nuclear war and the destruction of the environment.

"The basic idea behind the Human Survival Program," said Keifer, "is that some of the biggest and least understood problems facing the health sciences today are large-scale threats to whole human populations, by human actions. These are terribly complex problems, and their solution requires us to increase our knowledge of the biomedical and psychosocial facets of nuclear war, ecological disaster and overpopulation."

The program is one of several sponsored by the UC-Systemwide Institute on Global Conflict and Cooperation. Leaf's lecture is cosponsored by the World Affairs Council.

New A&PS Program

The campus has postponed the merit portion of the new A&PS (Administrative and Professional Staff) Program. See page 6.

If You Get One Thing Out of Organ Donor Awareness Week, Let it Be This...

Talk to your family!

A family discussion is recognized as the most important step in considering organ and tissue donation. Many people carry organ and tissue donor cards, but hospitals and organ procurement agencies will not act without permission of the next of kin. That's why it's important to know your family members' wishes.

As employees of UCSF we see the wonderful results of organ and tissue donation every day. Our kidney transplant service is one of the leading centers in the world—with over 2,800 transplants performed since 1964. We also have active bone marrow, corneal, middle ear ossicle and ear drum transplant programs, as well as a pancreas transplant program under development.

During Organ Donor Awareness Week—April 27 through May 1—sponsored by our Transplant Service, the Office of Public Service Programs and other members of a campus committee, you will have several opportunities to learn about organ/tissue donation:

- Monday, April 27—Information on organ/tissue donation and transplantation, Medical Science Lobby, 7:30 a.m. to 3:30 p.m.

  Donor Week Kickoff—Balloon release in Saunder Court, noon.
- Tuesday, April 28—William Amend, Jr., clinical professor of medicine, will speak on "The State of the Art of Organ Transplantation," HSW 300, noon.

  UCSF Transplant Service chief Oscar Salvatierra will attend an organ/tissue donation press conference at Mayor Feinstein's office, 2:30 p.m.
- Wednesday, April 29—Reception for kidney transplant patients who had their transplant 10 or more years ago, Millberry Union, 1 to 3 p.m.
- Thursday, April 30—Information on organ/tissue donation and transplantation, ACC lobby office, 11:30 a.m. to 1:30 p.m.

Founders Day—And What a Swell Party it Was

Mikkel Aaland

Nancy Cutler

Hundreds of employees, students and faculty celebrated Founders Day April 8 and 9. As a pre-Founders Day activity, the Graduate Students' Association held their annual GSA Research Day on April 7. Clockwise from top left are Kathleen Slobin from sociology and Peggy Dolcini from health psychology who tied for first in social sciences; Margaret Phillips from pharmaceutical chemistry took first in the basic sciences; and first in the nursing category, Merrie J. Kaas from mental health, community and administrative nursing. In the center photo, at the employee party, is respiratory care manager Jim Fink (somewhat dwarfed by one of our Founders Fest pretzels), winner of the Med Center's raffle prize (see story page 8). Far right, passing out the suds, is Assistant Chancellor Tom Gwyn. See page 3 for all the award winners from the Founders Day luncheon.

A Unique Look at New Guinea

Lisa Campbell saw New Guinea like few Americans do. She recently spent a three-month stint in the international youth leadership program, Operation Raleigh, where she waded through buggy mangrove swamps to gather medicinal plants, made friends with witch doctors and spent an afternoon with the Prince of Wales.

Lisa, who is the manager for the new Group Outings and Adventures—an offshoot of Outdoors Unlimited—will share her Papua New Guinea experiences at a multimedia presentation on Tuesday, April 28, from 7:30 to 9 p.m. in Toland Hall.

Operation Raleigh was organized at the suggestion of His Royal Highness the Prince of Wales, who still serves as its patron. It is somewhat of a cross between the Outward Bound self-awareness program and the Peace Corps, bringing together men and women ages 17 to 24 to work on challenging scientific and community service projects in remote parts of the world.

A typical "work week" for Lisa? She would start out by first visiting a village, often a day's walk through swampy, mosquito-infested forests. She then would meet, along with two other members of her group, with the committeeman, or chief, of the village. A group of older people familiar with medicinal plants would be organized, plus a group of younger ones, who would go along to translate and also help collect plants.

Samples of the plants Lisa and others collected, were sent to London for pharmacological analysis, to see if they contained any active ingredients. "We hope the results will provide some economic basis for rain forest preservation," said Lisa.

Study Says Effective, Inexpensive Treatment for Gonorrhea, Chlamydia Needed

Women with gonorrhea could be easily treated for chlamydia at the same time using an additional inexpensive and readily available drug, say UCSF researchers.

Combining the antibiotics ampicillin and tetracycline—which together cost just over $2 per treatment—for women with endocervical gonorrhea could save the country millions of dollars in medical costs, according to the UCSF study conducted for the National Centers for Disease Control. More importantly, say the researchers, it could save thousands of women from debilitating conditions associated with chlamydia, the most common sexually transmitted disease in the US.

"Between 25 and 50 percent of women with gonorrhea also have chlamydial infection, which in most cases may show no symptoms," said A. Eugene Washington, MD, clinical epidemiologist and principal author of the study. "Unless chlamydial infection can be absolutely ruled out, treatment for gonorrhea also should be aimed at chlamydia."

Coresearchers with Washington were Warren S. Browner, MD, MPH, assistant director of the UCSF Clinical Epidemiology Program; and Carol C. Korenbrot, PhD, of the UCSF Program in Reproductive Health Policy.

Washington

UCSF Mobile Van Participates in Special Cancer Screening Program

The UCSF Mobile Mammography Van is participating in a special Bay Area program aimed at encouraging women to have mammograms—safe, low-dose X-rays—for early detection of breast cancer.

Cosponsored by the American Cancer Society and KPIX-TV, Channel 5, the program, which began late this month, is called "Smart Woman . . . the $50 Mammography Screening Program." It involves nearly 100 Bay Area medical facilities, all of whom are lowering their own standard fees for mammograms from as much as $175 to $50, in an effort to screen more women and help reduce the toll from breast cancer.

The UCSF Mobile Van will continue to offer mammograms for its usual fee of $40 during the six-week program and after.

One in 10 American women will get breast cancer duing her lifetime, noted UCSF radiologist Edward Sickles, MD, director of the UCSF Mobile Mammography Van, who is co-chair of the special program's medical affairs task force. The disease is expected to strike 130,000 American women this year and kill 41,000.

Mammography can find tumors too small to be felt, he pointed out, and ACS and National Cancer Institute studies have shown that women have excellent survival rates when breast cancer is detected early.

Appointments at the UCSF van can be made by calling 990-0459 or x62193 between 9 a.m. and 3:30 p.m. Doctor's approval is required. The UCSF van will be in the following locations during the next two weeks:

- Apr. 27-May 1: Marina, at Marina Green parking lot near Buchanan and Marina Blvd.
- May 4-8: Embarcadero, on Drumm between 25th and 26th Aves.

For a schedule of locations through June call either 990-0459 or x62193.

ASUCSF Health Fair for Elderly May 9

Free health screenings and information on disease prevention, nutrition, medications and community services will be offered at a fair for the elderly on Saturday, May 9, from 10 a.m. to 4 p.m. at UCSF-Laurel Heights, 3333 California Street.

"Senior Wellness and Survival Day"—sponsored by the Associated Students of UCSF—will include 30 displays and booths with information ranging from health maintenance organizations to legal services for the elderly.

The health screening will include checking for high blood pressure, diabetes and dental, foot and vision problems. Entertainment and refreshments will be provided throughout the day. For further information call x62010.

AOA Visiting Professor May 13

Stanford radiologist Herbert Abrams, MD, is this year's Alpha Omega Alpha Medical Honor Society Visiting Professor. He will discuss "The Pathologic and Prognostic Implications of Coronary Arteriography" as part of Medicine Grand Rounds on Wednesday, May 13, from 11 a.m. to noon in Cole Hall.

Abrams, an international authority on cardiovascular radiology, is former chair of radiology at Harvard and former director of diagnostic radiology at Stanford. Over the last few years, he has studied the problem of accidental nuclear war and has been a national leader in the organization Physicians for Social Responsibility.

Abrams will be on campus May 12 and 13 to lead Department of Radiology seminars and teaching sessions for students, housestaff and faculty at UCSF, SFGH and the VAMC. He also will speak at the annual AOA Banquet on May 13. For further information call Kathy Healy, x68085.

Free Skin Cancer Screening May 16

UCSF dermatologists will provide free skin cancer screening on Saturday, May 16, 10 a.m. to 2 p.m., at the Dermatology Clinic on the third floor of the Ambulatory Care Center.

UCSF physicians will examine skin for unusual sores, warts, moles and pigmented areas, and other possible skin cancer warning signals.

Cancer of the skin is the most common of all cancers. With the exception of malignant melanoma, a rare form of the disease, it is however, the most curable cancer. Repeated overexposure to the ultraviolet rays of the sun is the principal cause of skin cancer. Doctors suggest sunscreens that contain PABA. Information on skin cancer will be available at the clinic on May 16.

The free screening is sponsored by the UCSF Department of Dermatology and the San Francisco Dermatological Society.

Changes for Millberry Food Service

For all of you who eat in the student union—you no doubt have noticed a change. The food service steam line in the Millberry Cafeteria has closed. That's because it was impossible to break even at the cafeteria, which served only one meal a day.

To handle the extra food crowd, two registers plus an express take-out window have been added to the Deli. Seating will continue to be available on the cafeteria side. The grill will remain for the time being, but plans include relocation to the deli side.

According to Ruby Freeman, director of Student Business Services, this is just the beginning of a reconfiguration of space that will change the entire food service seating area without reducing it, and at the same time enable Millberry to upgrade its recreation and fitness programs. Details to come in future issues of *Newsbreak*.

Ericksons on Aging

Renowned psychoanalysts Erik and Joan Erikson will discuss developmental issues of aging on Sunday, May 3, 2 to 5 p.m., at the UCSF-Laurel Heights Conference Center, 3333 California Street.

"An Afternoon with the Eriksons" is a special presentation of the LPPI/UCSF Alumni Faculty Association. UCSF psychiatrist Robert Wallerstein, MD, will moderate the program. A reception will follow the presentation. Tickets are $30 for members of the association; $35 general. For ticket information call x67474.

Cost of Disease: Nothing to Cough At

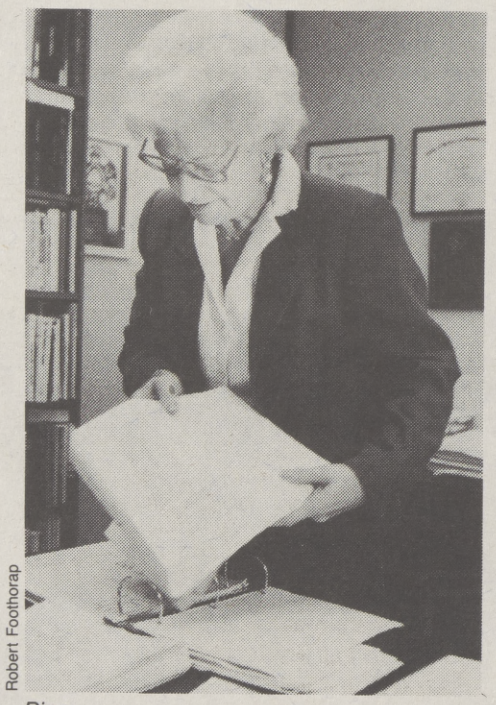
How much is disease costing us every year? The figures are astronomical. Dorothy Rice, professor in the School of Nursing's Department of Social and Behavioral Sciences, has just completed two studies on what some well-publicized diseases are costing this country. One study is on the cost of smoking-related illnesses, and the other on what AIDS will cost by the year 1991.

Some $53.7 billion a year is being spent on smoking-related illnesses. That's $23 billion in medical costs and another $30.7 billion in indirect costs such as lost earnings and premature death.

Those figures are conservative, said Rice, because her study did not take into account costs associated with cigarette-caused fires, adverse effects of second-hand smoke, neonatal disease or death, or deaths under age 20 that might be associated with smoking.

Rice's study is published in the current issue of *The Milbank Quarterly* of New York. Coauthors are Warren Browner, assistant director of the UCSF Clinical Epidemiology Program; Thomas A. Hodgson and Andrea N. Kopstein of the National Center for Health Statistics; and Peter Sinsheimer of San Diego State.

In the other study, Rice and coresearcher Anne Scitovsky from the UCSF Institute for Health Policy Studies estimate that the AIDS epidemic will cost the country $66.4 billion in 1991. This includes some $56 billion, or 84 percent of the total, which are indirect costs or lost earnings due to illness and premature death.



Robert Foothorap

Rice

The reason for the high indirect costs, and especially the high mortality costs, is the fact that most of the victims of AIDS are young, in the 20-to-40-year age bracket, and thus in their most productive years, said the researchers. Their study is published in the January/February issue of *Public Health Reports*.

Medicine Homecoming May 16

A gala dinner dance full of surprises is planned for this year's School of Medicine Alumni Homecoming, Saturday, May 16. Held at the Hotel Meridien, 50 Third Street, the dinner dance will cap a full day of activities, including a morning scientific program to be held on campus in Cole Hall.

Special events also are being planned for each five-year reunion beginning with the class of 1927.

See the next issue of *Newsbreak* for full details on the scientific symposium or call x61471.

UCSF *Newsbreak*

UCSF (ISSN0891-6063) Volume 2, Number 9, April 25-May 8, 1987. Published by the University of California, Third and Parnassus, San Francisco, CA, 23 issues per year—biweekly, except triweekly July, August and December. Second-class postage paid at San Francisco, CA. Postmaster send address changes to *UCSF Newsbreak*, News & Public Information Services, University of California, San Francisco, 532 Parnassus, Room 300, San Francisco 94143-0250.

Deadline for the next issue, which will cover May 9-22, will be Tuesday, April 28. Please send campus news copy to Allen Balderson and Medical Center news to Dawn Finch, both at the above address. Last-minute copy can be taken over the telephone by calling x61541 or x62557.

Congratulations to all of Our Founders Day Award Winners

Eleven campus individuals were recognized for their contributions to the campus at this year's Founders Day awards luncheon on April 9.

Marcus Conant, MD, clinical professor of dermatology; Marie J. Rhodes, administrative assistant in the Academic Senate Office; and David Siegel, MD, associate clinical professor in the Clinical Epidemiology Program, received the Chancellor's Award for Public Service.

Susan K. Adams, administrative assistant II, biochemistry/biophysics; senior food service workers in Nutrition and Dietetics, Wai Bun Lee and Robert Palec; Inge Roberts, staff research associate II, medicine/cardiology, SFGH; Mary A. Salfi, staff research associate I, Brain Behavior Research Center, Sonoma; and Joan M. Seib, administrative assistant II, medicine, received the Chancellor's Exceptional Service Award.

The Distinguished Nurse Award went to Kathleen Schmidt, coordinator of the Metabolic Diseases and Newborn Screening Program in the Division of Genetics, Department of Pediatrics. The Jeanne Yalon Oncology Nurse Award went to Mary M. Williams, head nurse of the Hematology/Oncology Clinic.

Top Honors to Bishop, Varmus

J. Michael Bishop, MD, and Harold Varmus, MD, pioneers in the study of cancer-causing genes called "oncogenes," received the prestigious American College of Physicians Award for outstanding work in medical science at the college's annual meeting this month in New Orleans. Bishop is director of the UCSF George W. Hooper Research Foundation, Varmus an American Cancer Society Professor of Molecular Virology. Both are professors of microbiology, immunology, biochemistry and biophysics.

Honors & Awards

Newton C. Gordon, clinical professor, oral & maxillofacial surgery, School of Dentistry; chief, hospital dentistry, SFGH: Presented, at a dinner in his honor, with resolutions of appreciation by the SF Board of Supervisors, the CA State Assembly, the CA Chapter of the National Dental Association and the UCSF Black Dental Alumni Society for his services to dentistry and the community.

Holly H. Elliott, clinical social worker, UC Center on Deafness; **Faricita H. Wyatt**, employee representative, personnel office; coordinator, Retirees Employment Program: Selected by the SF Chapter of the Older Women's League as "Wonderful Older Women" who have served as nonstereotypic models of women 60 or over who have demonstrated excellence in their service to the community. They will be honored by OWL at a fundraising reception May 8 at the Vorpal Gallery. For more information call 550-1660.

Nursing Alumni Day Apr. 25

Sarah Erlach is the keynote speaker at this year's School of Nursing Alumni Day to be held Saturday, April 25, in HSW 300. Chief of primary health care and development programs for the Department of Health Services, Rural Community Health Division, Erlach will discuss "Nursing Visibility and Service: Through Social Action in the Community," the theme for this year's alumni day celebration.

Professor emeritus Ann Hill, BS '40, will be presented the 1987 Distinguished Nursing Alumni Award. For some 40 years, Hill has encouraged and inspired students and influenced the nursing profession. She is responsible for initiating the UCSF School of Nursing Certification Program, maintaining that academic requirements for school nurses be as exacting as those for school teachers.

Afternoon panel presentations will look at community mental health and the homeless, home care hospice and AIDS hospice. A wine and cheese reception will follow in the School of Nursing mezzanine at 3:15 p.m. For further information call x64723.

David Powers

Distinguished Nursing Alumna Ann Hill

Service Award Recipients

Service awards are issued on staff members' tenth anniversary of employment (or longer, in increments of five years). Names are provided by Personnel as awards are processed. Campus and Medical Center departments should send criteria to Personnel as employees become eligible for service awards.

Janice Babula, 10 years, Graduate Division

Rebecca Bantug, 10 years, career float

George R. Battles, 10 years, accounts receivable

Landes L. Chin, 10 years, accounts receivable

Sau Y. Chinn, 20 years, laundry

Janet E. Collins, 25 years, CVRI

Joan H. Colman, 10 years, General Clinical Research Center

Lucille Cunningham, 20 years, laundry

Remedious Curtis, 15 years, accounting

Nenita F. Domingo, 15 years, social services

Barbara A. Ehrlich, 10 years, CVRI

Joanne C. Foon, 10 years, operating room

Marcia Ann Grumme, 20 years, financial aid

Mukhtar Hai, 10 years, medical records

Shirley J. Hamilton, 10 years, neurological surgery

Lottie O. Harris, 25 years, operating room

Vivian Hawkins, 25 years, microbiology

Jennifer Henke, 10 years, HISD

Carol A. Hernandez, 20 years, clinical labs/SFGH

May Huang, 15 years, CVRI

John W. Hudson, 15 years, CVRI

Regina H. Hussein, 20 years, ACC

Gordon Isaak, 20 years, EMR

Annibelle Jacobs, 20 years, Clinical Study Center

Today/Tomorrow

25 Saturday

UROLOGY GRAND ROUNDS: *Clinical Significance of Tumor Genetics: Role in Urologic Malignancy.* George Fournier, Uro., VAMC. *Changing Concepts in the Surgical Treatment of Renal Cell Carcinoma.* Andrew C. Novick, Uro., Cleveland Clinic. Preceded by reports & case presentations. HSW 303. 8:30-11 a.m.

NURSING ALUMNI DAY APR 25

A full day of events includes presentation of Distinguished Alumni Award to Ann Hill, '40 followed by keynote speaker Sarah Erlach, CA Dept. of Health Services, plus an afternoon of panels and group discussions. See story on page 3.

26 Sunday

JANET GUGGENHEIM & SF SYMPHONY PRINCIPALS APR 26

Renowned pianist Janet Guggenheim with SF Symphony violinists Daniel Kobialka, Geraldine Walther and cellist Michael Grebanier in an evening of chamber music featuring works by Beethoven, Dvorak & Dohnanyi. $6 students & seniors; $7 UCSF faculty & staff; $8 general. UCSF-Laurel Heights Aud. 8 p.m. Free parking. Call x62542.*

27 Monday

MOBILE MAMMOGRAPHY SCREENING SCHEDULE

Women now can have low-cost mammograms—x-rays to screen for breast cancer—from a mobile van that travels to convenient shopping or downtown locations in San Francisco and remains for a week at a time.

Women need the approval of their physicians to have the mammogram. The procedure takes approximately 20 minutes and costs only $40. To make an appointment call 990-0459 or x62193 between 9 a.m. and 3:30 p.m.

The van will be at the following locations for the next two weeks:

Apr. 27-May 1: Marina Green parking lot near Buchanan St. & Marina Blvd.

May 4-8: Embarcadero, between Sacramento & Clay Sts.

CAMPUS BLOOD DRIVE APR 27

Contests, raffles and refreshments for participants. Please bring ID. MU main lounge, 8 a.m.-3 p.m. & School of Nursing mezzanine level, 11 a.m.-5:30 p.m.*

OTOLARYNGOLOGY GRAND ROUNDS. S 214. 8-10 a.m.

SAMPSON LECTURER APR 27-29

29 Wednesday

HAND SURGERY CONFERENCE: Journal Club. S 214. 7-8 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call Lourdes Sibayan, coordinator, x61662.

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

PSYCHIATRY GRAND ROUNDS: *Major Affective Disease & Creativity.* William A. Frosch, Psychr., Cornell. LPPI Aud. 8-9 a.m.

DERMATOLOGY GRAND ROUNDS: *Immunization Update for the Dermatologist.* M. Grossman, Derm. HSW 301. 8 a.m.

NUCLEAR MEDICINE SEMINAR. L 340. 8:15-9:15 a.m.

ENDOCRINE GRAND ROUNDS/PITUITARY SYMPOSIUM. M 1486. 8:30 a.m.

PRIMARY CARE LECTURE SERIES: *Occupational Medicine.* Robert Harrison, Med. A 455. 10 a.m.-noon.

KADEKA, KARP & DANCERS APR 29

Kadeka Dances for Kids and Nancy Karp & Dancers celebrate International Dance Week with a performance in Saunders Court. Noon.*

SPECIAL ETHICS SEMINAR: *Euthanasia: The Dutch Position.* Herman H. Van Der Kloot Meijburg, director, Netherlands National Health Organization. HSW 302. Noon-1:30 p.m. For more information call x61504.*

ANATOMY SEMINAR: *Localized Sperm Plasma Membrane Proteins Migrate to New Domains During Fertilization.* Paul Primakoff, Physio., U Connecticut. HSE 1309. Noon.

ORAL BIOLOGY 209 CONNECTIVE TISSUE SEMINAR: *Matrix in Skin: Biology & Pathology.* Robert Burgeson, Biochem., Oregon Hlth. Sci. U. S 214. Noon.

WOMEN & SPIRITUALITY MEETING: 1378-3rd Ave. Noon. For more information call the Landberg Center, 564-3515.*

BROWN BAG LECTURE SERIES: *Everyone Wants to Go to Heaven-Nobody Wants to Die.* Louvain G. Bue, Dale Carnegie Sponsors Assn. HSW 300. Noon. Also telecast live to SFGH Carr Aud. & CED 3rd Flr. Commons Rm. Videotapes available for viewing in HSE 345, SIMA unit, UCSF Library. Call x64394.*

UCSF AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon-1 p.m.*

HEAD & NECK TUMOR CONFERENCE. A 732. 1-3 p.m.

UCSF/UCB TOXIC SUBSTANCES RESEARCH & TRAINING SEMINAR: *Studies on the Metabolism & Mechanism of Action of DBCP.* David Dohn, Pesticide Chem. & Toxico. Lab., UCB. 24 Warren, UCB. 4-6 p.m.

TRISERVICES CARDIOLOGY CONFERENCE. S 1364. 4:30-5:30 p.m.

SFGH GI-MEDICINE/SURGERY PATIENT CARE CONFERENCE. Rm. 4H2, SFGH. 4:30 p.m.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

PATHOLOGY GRAND ROUNDS: *Oral Pathology.* Louis Hansen, Oral Path. & Stomatol. HSW 508. 5:15-6:15 p.m.

COMMUNITY HEALTH TALK: *Developments in Cosmetic Dentistry.* Alton M. Lacy, Rest. Dent. Toland Hall. 7:30-9 p.m.*

30 Thursday

CLINICAL PAIN CONFERENCE. S 758. 7:30-8:30 a.m.

OPHTHALMOLOGY GRAND ROUNDS: *Neuronal Involvement in a Mouse Model of Ocular Herpes.* Todd Margolis, Oph. Preceded by patient exams & discussion. S 214. 8:15 a.m.

PEDIATRICS GRAND ROUNDS. *Empiric Antibiotic Therapy.* John E. Conte, Med. S 664. 8:30-9:30 a.m.

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H40, SFGH. 8:30 a.m.

PEDIATRIC TUMOR BOARD. L 34. 11 a.m.-12:15 p.m.

NEUROLOGY GRAND ROUNDS: *Duchenne Muscular Dystrophy: Clinical Features & Gene Detection.* Richard Olney, Neuro.; Roger Lebo, Ob/Gyn. S 664. 11:10 a.m.-12:05 p.m.

RADIOBIOLOGY & ENVIRONMENTAL HEALTH SEMINAR: *Toxicity, Mutations & Stress Responses Induced in* E. coli *by Hydrogen Peroxide.* Stuart Linn, Biochem., UCB. LR 213. Noon

NEURO-ONCOLOGY TUMOR BOARD. L 34. 12:30-1:30 p.m.

BIOPHYSICS GRADUATE GROUP SEMINAR: *Calculating Free Energies in Complex Systems.* Peter Kollman, Pharm. Chem. S 980. 1 p.m.

HEMATOLOGY/ONCOLOGY GRAND ROUNDS: *Interferons: Is There a Future After Hairy Cell Leukemia?* Ernest Borden, Onc., U Wisconsin. M 1296. 1:30-2:30 p.m.

FIRST ANNUAL DENTAL FACULTY LECTURE: *Journey of an Oral Biologist: Being There.* Ernest Newbrun, Oral Bio. HSW 301. 3-4:30 p.m. Reception to follow.

NEUROBIOLOGY SEMINAR: *Cell Interactions & Cell Lineage in Leech Neurogenesis.* David Weisblat, Zool., UCB. HSW 300. 4 p.m.

NEURORADIOLOGY CONFERENCE. HSW 303. 4-5 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1161. 4-6 p.m.

URO-ONCOLOGY CONFERENCE: *Immunotherapy of Renal Cell Carcinoma.* Avi Markowitz, Surg. M 460. 4:30-6 p.m.

RADIATION ONCOLOGY CONFERENCE: *Cellular Glutathione & Sensitivity to Radiation or Chemotherapy.* Dennis C. Shrieve, Rad. Onc. L 34. 5 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 5-6:30 p.m.

COLE HALL CINEMA: *Crimes of the Heart.* Starring Dianne Keaton, Jessica Lange & Sissy Spacek. Children under 14 $2; MU members, UCSF students & employees (Thurs. shows only) $2.50; general $3. Cole Hall. 5:45 & 8 p.m.*

PLASTIC SURGERY CONFERENCE: *Preparation for the Plastic Surgery Boards.* Stephen Mathes, Ronald Barton, To-Nao Wang & William Hoffman, all Surg. HSW 300. 6-7 p.m.

OUTDOORS UNLIMITED: *Mexico Night.* How to organize scuba, snorkeling & sailing trips to Mexico & the Gulf of California. MU Madrone Rm. 7:30 p.m.*

1 Friday

SFGH MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H4, SFGH. 7-7:30 a.m.

RADIATION ONCOLOGY GRAND ROUNDS: *Primary CNS Lymphoma: Past, Present & Future.* Mark L. Rosenblum, Neurosurg. L 34. 8 a.m.

PULMONARY PHYSIOLOGY SEMINAR. L 1361. 8-9:30 a.m.

TRICENTER RADIATION ONCOLOGY CONFERENCE. L 34. 8:10 a.m.

PEDIATRIC CHIEF OF SERVICE ROUNDS. M 666. 9 a.m.

LPPI CHILD & ADOLESCENT SERVICE CLINICAL CONFERENCE: *Childhood Onset of Anorexia Nervosa.* Bryon Lask, Psych. Med., Hosp. for Sick Children, London. LPPI Aud. 10:10-11:30 a.m.

PHARMACEUTICAL CHEMISTRY SEMINAR: *Computer Modelling of Phospholipid Bilayers.* Bruce Gaber, Biomolec. Engr., Naval Res. Lab., Wash. DC. S 1364. 11 a.m.

PATHS OF HEALING & WHOLENESS SEMINAR: *Sexuality & Spirituality.* Marilyn King. N 517. Noon.*

ALCOHOLICS ANONYMOUS MEETING: All are invited. HSE 336. Noon-1 p.m.*

BIOCHEMISTRY & BIOPHYSICS SEMINAR: *The Molecular Biology of Myosin-Based Motility.* Jim Spudich, Cell Bio., Stanford. HSW 301. 4 p.m.

UCSF WOMEN'S BASKETBALL CLUB: Open to all campus women. MU Gym. 6-7:30 p.m. Call Mary Newman for details, x63058.

COLE HALL CINEMA: *Crimes of the Heart.* Starring Diane Keaton, Jessica Lange & Cissy Spacek. Children under 14 $2; MU members & UCSF students $2.50; general $3. Cole Hall. 6:30 & 8:45 p.m.*

2 Saturday

ANESTHESIA MORBIDITY/MORTALITY CONFERENCE. HSW 301. 8-10 a.m.

ORTHOPEDIC GRAND ROUNDS. Toland Hall. 8-9 a.m.

ESTATE PLANNING & REAL ESTATE SYMPOSIUM: Presented by the UCSF Foundation. UCSF-Laurel Heights. 9 a.m.-4 p.m. For information & reservations call x65865.

*Open to the public.

April 25-May 8, 1987

3 Sunday

THE ERICKSONS ON AGING MAY 3

Renowned psychoanalysts Erik and Joan Erickson to discuss developmental issues of aging. Sponsored by LPPI/UCSF Alumni/Faculty Assn. Tickets $30 members; $35 general. UCSF Laurel Heights. 2 p.m. Call x67474. (See page 2 for details.)*

4 Monday

CINCO DE MAYO EVENTS MAY 4-8

A week of activities in celebration of Mexican Independence Day. For further information call x65936.

Mon., May 4: *Slic Ric.* Stand-up comedy from Bay Area Culture Clash. HSW 301. Noon-1 p.m.

Reception. SF Supervisor Jim Gonzalez & Robert Reveles, vice president, Homestake Mining. Faculty/Alumni House. 3:30-6 p.m.

Tues., May 5: *Los Aztecas Mariachis.* Saunders Court. Noon-1 p.m.

Wed., May 6: *Ballet Folklorico de Stanford.* Saunders Court. Noon-1 p.m.

Thurs., May 7: *No Les Pedimos Un Viaje A La Luna.* 1986 Mexican documentary film about women laborers after the 1985 earthquake. HSW 301. Noon-1 p.m.

Fri., May 8: *Dance with d.j. Leonel.* MU lounges. 9 p.m.-1 a.m. UCSF students free; general $3.

BRAIN TUMOR RESEARCH CENTER SEMINAR: *Combination Chemotherapeutic Regimens Designed to Inhibit DNA Repair in Resistant Human Tumor Cells.* Leonard C. Erickson, Med., Loyola U, Chicago. S 1364. Noon

OVEREATERS ANONYMOUS MEETING: N 417. Noon. Call Dolores Phillips, 929-8651.*

VOLUNTEER ORIENTATION: To acquaint new & prospective volunteers with opportunities available in the Medical Center. N 721. 1-3 p.m. Call x61196.*

LABORATORY MEDICINE CORE CURRICULUM. L 535. 2-3:30 p.m.

LABORATORY MEDICINE GRAND ROUNDS. L 535. 4-5 p.m.

COMBINED RHEUMATOLOGY/HAND SURGERY CONFERENCE. U 469. 4:15 p.m.

5 Tuesday

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th fl. A. 8 a.m.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *Orthognathic Surgery for Maxillary Deformities.* Leonard B. Kaplan, Oral & Max. Surg. C 701. 8 a.m.

SFGH PEDIATRIC GRAND ROUNDS. Carr Aud., SFGH. 8:30-10 a.m.

OB/GYN GRAND ROUNDS: *Ocular Manifestations of Pre-Eclampsia.* Glenn Jaffe, Oph.; James Roberts, Ob/Gyn. S 1364. 9 a.m.

OBSTETRICS/PEDIATRICS & ANESTHESIOLOGY CONFERENCE: Julian T. Parer, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.

GENDER, CLASS & RACE IN THE HISTORY OF HEALTH SCIENCES LECTURE SERIES: *Gender, Disease & Psychiatric Diagnostics: Jean-Martin Charcot & the 19th Century Idea of Masculine Hysterical Neurosis.* Mark S. Micale, Society of Fellows, Harvard. HSW 302. Noon-1 p.m.*

RETIREMENT MEETING: To discuss UCSF retirement plans. N 527. Noon-1 p.m.

INTERNATIONAL FOLK DANCING: Led by Dean Linscott. No partner needed. Everyone welcome. MU Gym. 1:15-2:30 p.m. $2.*

SFGH GI-MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 3:30 p.m.

BIOCHEMISTRY & BIOPHYSICS SEMINAR: *Elements that Organize Chromosomal Loops in the Interphase Nucleus.* William Garrard, Biochem., U Texas. HSW 301. 4 p.m.

CURRENT ISSUES IN AGING COLLOQUIUM SERIES: *Distributive Justice & the Treatment of Acute Illness in Nursing Homes.* Jeanie Kayser-Jones, Fam. Hlth. Care Nursing & Med. Anthro. N 729. 4-5 p.m.*

UCSF/UCB JOINT BIOENGINEERING SEMINAR: *Myocardial Microcirculation: Granulocytes, Capillary Plugging & Oxygen Radical Injury During Ischemia.* E.L. Engler, Med., UCSD. 240 Bechtel, UCB. 4-6 p.m.

6 Wednesday

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

SFGH UROLOGY GRAND ROUNDS. Cafeteria Confr. Rm. 1, SFGH. 7:30-9 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call Lourdes Sibayan, coordinator, x61662.

PSYCHIATRY GRAND ROUNDS: *Advancements in Cochlear Implantation: Surgical & Psychiatric Implications.* Robert Schindler, Oto.; Jay Williams Evans, Psychr. & Ctr. on Deafness. LPPI Aud. 8-9 a.m.

ENDOCRINE GRAND ROUNDS-PITUITARY SYMPOSIUM. M 1486. 8:30 a.m.

PHARMACEUTICAL BIOTECHNOLOGY SYMPOSIUM MAY 6

The Rational Design & Delivery of New Drugs & Proteins. An all-day symposium to foster interactions between UCSF & the Bay Area biotechnology industry. UCSF-Laurel Heights. 9 a.m.-4 p.m. For information call Susan Atwood, x61680.

PRIMARY CARE LECTURE SERIES: *Breast Cancer.* Francine Halberg, Rad. Onc. *Renal Function in Older Patients.* Edmund Lonergan, Med. A 455. 10 a.m.-noon.

PATHOLOGY SEMINAR: *Anisakiasis & Public Health: Is Seafood Safe?* Thomas L. Deardorff, FDA Fisheries Res. HSW 508. 11 a.m.-noon.

MEDICAL GRAND ROUNDS: *Update on Portal Hypertension.* Dame Sheila Sherlock, Med., Royal Free Hosp., London. Cole Hall. 11 a.m.-noon.

FACULTY WIVES MEETING & LUNCHEON: Presentation of the annual contribution to the Faculty Wives Student Loan Fund. Faculty/Alumni House. 11:30 a.m. Call Marjorie Campagna-Pinto, 921-6646.

WOMEN & SPIRITUALITY MEETING: 1378-3rd Ave. Noon-1 p.m. Call 564-3515 for further info.*

ORAL BIOLOGY 209 CONNECTIVE TISSUE SEMINAR: *Matrix Influences in Neuronal Development.* Louis Reichardt, Physio., Biochem. & Biophys. S 214. Noon.

BROWN BAG LECTURE SERIES: *Sorry I Can't Hear You!* Laurel L. Glass, Anat. & Psychr. The challenges, exasperations & triumphs of of those who lose their hearing as adults. HSW 300. Noon. Also telecast live to SFGH Carr Aud. & CED 3rd Flr. Commons Rm. Videotapes available for viewing in HSE 345, SIMA unit, UCSF Library. Call x64394.*

UCSF AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon.*

HEAD & NECK TUMOR CONFERENCE. A 732. 1-3 p.m.

DISTINGUISHED IMMUNOLOGIST LECTURE: *Characterization & Subcellular G Protein-Dependent Activation of the Superoxide-Forming Oxidase of Human Neutrophils.* Robert A. Clark, Med., U Iowa. HSW 301. 4-5 p.m.

TRISERVICES CARDIOLOGY CONFERENCE. S 1364. 4:30-5:30 p.m.

SFGH GI-MEDICINE/SURGERY PATIENT CARE CONFERENCE. Rm. 4H2, SFGH. 4:30 p.m.

PATHOLOGY GRAND ROUNDS: *Gynecologic Pathology: Unknown Slides.* Ann Thor, Path. HSW 508. 5:15-6:15 p.m.

RADIOLOGY GRAND ROUNDS: *Interventional Radiology.* Ernest J. Ring & Timothy Maroney, Radiol. HSW 303. 5:30-6:30 p.m.

TREASURE TROVE AUCTION MAY 6 & 7

Fine art & collectibles auctioned in Millberry Union lounges for the benefit of the Hospitals Auxiliary. Wed., May 6: Preview silent auction & cocktail party. 6:30-9 p.m. Tickets $75. Thurs., May 7: Public auction. 10 a.m.-4 p.m. (For details see page 8.)*

7 Thursday

CLINICAL PAIN CONFERENCE. S 758. 7:30-8:30 a.m.

SFGH NEUROLOGY-NEUROSURGERY CONFERENCE. Rm. 4H2, SFGH. 8-9 a.m.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *Controversial Dermatologic Cases.* Robert M. Adams., Derm., Stanford. A 455. 8:30-10 a.m.

PEDIATRICS GRAND ROUNDS. S 664. 8:30-10 a.m.

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H40, SFGH. 8:30 a.m.

PEDIATRIC TUMOR BOARD. L 34. 11 a.m.-12:15 p.m.

NEUROLOGY GRAND ROUNDS: *The Cluster-Tic Syndrome: Facial Pain Reconsidered.* Neil H. Raskin, Neuro. S 664. 11:10-12:05 p.m.

REPRODUCTIVE BIOLOGY SEMINAR. M 1486. Noon.

UCSF/MOUNT ZION GERIATRIC GRAND ROUNDS. Herbst Hall, Mt. Zion. Noon.

NEURO-ONCOLOGY TUMOR BOARD. L 34. 12:30-1:30 p.m.

HEMATOLOGY/ONCOLOGY GRAND ROUNDS: *AIDS: Antibodies, Antigens, Immune Complexes.* John Morrow, Lab. Med. & CRI. M 1296. 1:30-2:30 p.m.

NEUROBIOLOGY SEMINAR: *Molecular Genetics of Human Color Vision.* Jeremy Nathans, Biochem., Stanford. HSW 300. 4 p.m.

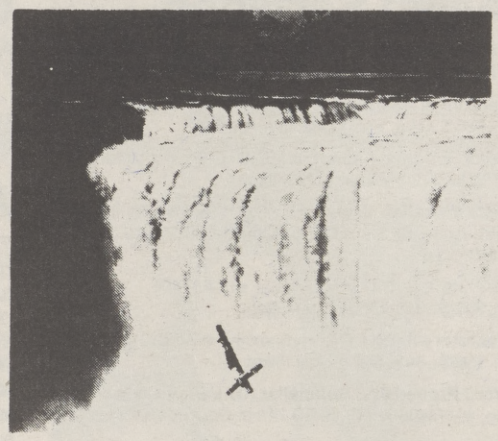
ORTHOPEDIC SURGERY CLINICAL GRAND ROUNDS. A 630. 4 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1161. 4-6 p.m.

PRIMARY CARE GRAND ROUNDS: *Food Poisoning.* Mary Patton, Med., SFGH. A 455. 4:30 p.m.

RADIATION ONCOLOGY CONFERENCE: *Radiation Response of Normal Brain.* John R. Fike, Rad. Onc. L 34. 5 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 5-6:30 p.m.



COLE HALL CINEMA: *The Mission.* Starring Robert De Niro & Jeremy Irons. Children under 14 $2; MU members, UCSF students & employees (Thurs. shows only) $2.50; general $3. Cole Hall. 5:45 & 8:15 p.m.*

PLASTIC SURGERY LECTURE: D&C Conference. HSW 300. 6-7 p.m.

PATAGONIA & THE BIO BIO MAY 7

A slide presentation by wilderness photographer Harvey Sherman on his recent travel in southern Argentina & along Chile's most renowned whitewater river. Sponsored by Outdoors Unlimited. To benefit the International Rivers Network. HSW 301. 7:30 p.m. $2.50. Call x61469 for more information.*

8 Friday

SFGH MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H4, SFGH. 7-7:30 a.m.

PULMONARY PHYSIOLOGY SEMINAR. L 1361. 8-9:30 a.m.

TRICENTER RADIATION ONCOLOGY CONFERENCE. L 34. 8:10 a.m.

PEDIATRIC CHIEF OF SERVICE ROUNDS. M 666. 9 a.m.

LPPI CHILD & ADOLESCENT SERVICE CLINICAL CONFERENCE: *Chronic Suicidal Behavior & High Anxiety in a Latency-Aged Boy.* James Dallman, Psychr. LPPI Aud. 10:10-11:30 a.m.

PATHS OF HEALING & WHOLENESS: *Holism in Nursing Practice.* Jocelyn Nielsen. N 517. Noon-1 p.m.*

ALCOHOLICS ANONYMOUS MEETING: All are invited. HSE 336. Noon-1 p.m.*

UCSF WOMEN'S BASKETBALL CLUB: Open to all campus women. MU Gym. 6-7:30 p.m. Call Mary Newman for details, x63058.

COLE HALL CINEMA: *The Mission.* Starring Robert De Niro & Jeremy Irons. Children under 14 $2; MU members, UCSF students $2.50; general $3. Cole Hall. 6:30 & 9 p.m.*

SABIA MAY 8

Formando un Puente—Building Bridges. Latin American folk music of the vocal ensemble Sabia. UCSF-Laurel Heights Aud. 8 p.m. $6 students & seniors; $7 UCSF faculty & staff; $8 general. Free parking. Call x62542.*

DEVELOPMENT & TRAINING COURSES

Call x64032.

Management of Organizational Politics. Mon., Apr. 27. 9 a.m.-4 p.m. $20.

Survival Skills for the Administrative Assistant. Wed., Apr. 29. 8:30 a.m.-11:30 p.m. $10.

Rewarding & Recognizing Positive Behavior. Thurs., Apr. 30. 9 a.m.-4:30 p.m. $20.

Retirement Planning Program. Mon., May 4, 11, 18, June 1, 8, 15. 10 a.m.-noon. $20.

Writing & Editing Skills. Tues., May 5-19. 9 a.m.-noon. $20.

Career Directions at UCSF. Thurs., May 7-21. 8:30 a.m.-noon. $5.

Time Management at Work. Wed., May 13. 8:30 a.m.-4:30 p.m. $20.

Introduction to Word Processing. Wed., May 13. 8:30 a.m.-noon. $5.

Problem Solving & Decision Making. Fri., May 29. 9 a.m.-4:30 p.m. $20.

CONTINUING EDUCATION

MEDICINE

Call x64251 for further information unless otherwise stated.

Video Display Terminals: Workplace Design for Optimal Health & Safety. Clark Kerr Campus Ctr., UCB. Apr. 30-May 1. Sponsored by Northern CA Occupational Health Cntr. Call 642-5507.

Postgraduate Course in General Surgery. Hotel Meridien, SF. Apr. 30-May 2.

Comprehensive Care of the AIDS Patient Workshop. Hyatt Union Square, SF. May 1-2.

Orthopedic Review Course. UCSF. May 9-10. Holiday Inn-Golden Gateway, SF. May 11-15.

Advances in Internal Medicine. Hyatt Union Square, SF. May 18-22. UCSF. June 22-26. Call x65208.

Laboratory Diagnosis in Clinical Practice: Advances in Clinical Laboratory Testing. Union Square Holiday Inn, SF. May 19-20.

Current Issues in Anatomic Pathology. Union Square Holiday Inn, SF. May 21-22.

RADIOLOGY

Call x65731 for further information.

Recent Advances in Clinical Periodontology. UCSF. May 9.

Endodontics: The True Story. UCSF. May 15.

Assist in Administration of N_2O-O_2 Inhalation Sedation: Participation Course for Dental Auxiliaries. UCSF. May 16.

Carbon Dioxide Laser in Oral & Maxillofacial Surgery. UCSF. May 29-30.

Benefits

Campus Postpones Merit Portion of A&PS Program

Hundreds of employees from UCSF and several other UC campuses have expressed strong concerns about the A&PS (Administrative & Professional Staff) Program, especially the associated merit portion and the development of a performance evaluation system. UCSF professor and chair of anatomy Henry J. Ralston, who is the campus representative on the Systemwide Academic Senate Council, also has expressed his concerns to Senior Vice President Ronald Brady.

Because of these concerns, UCSF Administrative Vice Chancellor Herb Suelzle attended a meeting at the UC President's Office on April 21, where all UC administrative vice chancellors discussed these concerns with Brady.

It was decided at the meeting that each UC campus would have the option whether or not to implement the merit portion of the new A&PS program on July 1 of this year. Our campus has decided not to implement the merit portion of the program until our individual campus needs can be better assessed. This means that the new, wider (50 percent) A&PS salary ranges will not be effective on July 1, 1987. Rather, the ranges and steps will remain the same (approximately 20 percent), and those employees who were normally scheduled for a July merit increase will be eligible for a 0, 2.5, 5 or 7.5 percent increase as is the usual merit process. Employees who received a January 1, 1987 merit increase or those people at the maximum of their salary range, will not be eligible for a July 1, 1987 increase.

On January 1, 1988, these 20 percent ranges will be adjusted upward by approximately 3 percent. This range adjustment process does not apply to non-represented nurses, who will receive a 2.5 percent range adjustment increase on May 2, 1987 instead of a January 1, 1988 range adjustment, nor to management services officers, who will be eligible for July 1, 1987 merit increases as in past years.

All campuses, including UCSF, must implement the new merit program by July 1, 1988.

Other aspects of the A&PS program, including increased vacation accrual, will become effective for all campuses, including UCSF, on July 1 of this year.

According to Personnel Manager Chick Francis, our campus, which has held nine A&PS meetings already, will continue to hold sessions for all employees who will be affected by this new program, as well as employee organizations, including the UCSF Staff Council and ABOG (Academic Business Officers Group), to address concerns before implementing the merit segment.

Employees also have expressed concern over a particular aspect of the merit segment called "midpoint control." This is where salary progression is slower once you have reached the midpoint of your salary range. All future A&PS meetings will include discussions on this matter.

The next issue of *Newsbreak* will contain more details on the program, including dates of future A&PS meetings.

How are the Funds Performing?

For those invested in the additional savings programs, here are the latest unit values and monthly factors (as of February 28):

- *Accumulation Unit Values*

Equity Fund: $52.369 (33.78%)*
Bond Fund: $32.559 (20.11%)*

- *Monthly Factors*

Savings Fund: .006939 (8.65%)**
Money Market Fund: .005443 (6.73%)**
GIC Fund: .006933 (8.64%)**

*Percentages represent total percentage increase over previous 12-month period.

**Percentages represent the most recent returns expressed as an annualized rate. The money market and savings rates change monthly.

Questions, call x61400.

Personnel Action Forms Due

The Personnel Department reminds all administrators on campus that personnel action forms with July 1 effective dates should be approved and submitted no later than the following dates:

- Fri., May 8: Academic personnel action forms to be received in the Office of the Senior Vice Chancellor-Academic Affairs, Box 0400, Rm. S 115.
- Fri., May 15: Staff personnel action forms to be received in the Personnel Office, Box 0832, Laguna Honda, Rm. 150.
- For those departments who submit the forms directly to the Accounting Office, the deadline is Friday, June 19.

Jobs

The Personnel Department, located at 1350 Seventh Avenue, is open to receive applications every weekday from 8 a.m. to 5 p.m. with extended hours on Wednesdays, 8 a.m. to 6:30 p.m. Details of jobs listed below are available in the UCSF Employment Opportunities flyers. Copies are distributed campuswide and also are posted at the Personnel Office and in the main lobby of Moffitt Hospital.

Staff Research Associate I/II. Pediatrics. #M-W50182. $1,811-$2,169 Or $2,070-$2,490. Filing Deadline: 4/29/87.

Staff Research Associate I.Cardiovascular Research Institute. #M-L41261. $1,811-$2,169. Open Until Filled.

Staff Research Associate I. Neurology, SFGH. #M-C41472. $1,811-$2,169. Filing Deadline: 4/29/87.

Staff Research Associate I. Pharmacy. #V-S52285. $1,811-$2,169. Filing Deadline: 4/29/87.

Parking and Guard Services

Parking Representative (SX). Parking Operations. #V-S50718. $8.13-$9.52/Hr. Open Until Filled.

Academic

The Senior Vice Chancellor - Academic Affairs distributes an Academic Employment Opportunities bulletin on a monthly basis to all UCSF departments. You may obtain a complete description of open academic positions from Academic Affairs, Room U 162, UCSF. Positions are located on the Parnassus campus unless otherwise noted.

Assistant/Associate Clinical Professor. Dermatology. VAMC. #M-724. Open until filled.

Assistant/Associate Clinical Professor. Dermatology. #M-725. Open until filled.

Assistant Research Physicist. Radiology. #M-726. Open until filled.

Assistant Professor in Residence. Radiology. #M-727. Open until filled.

Assistant Professor in Residence. Behavioral Neuroscience Service/ Psychiatry. #M-728. Open until filled.

Clinical Instructor or Assistant Clinical Professor (eight positions). Division of General Internal Medicine. #M-730. Open until filled.

Assistant/Associate Research Biochemist. Biomolecular Resource Center/ Biochemistry/Biophysics. #M-731. Open until filled.

Assistant Professor in Residence. Cardiology Division. VAMC. #M-732. Open until filled.

Assistant Research Nurse. Physiological Nursing. #N-111. Open until filled.

Inpatient Nursing

For more information on the following positions, call nurse recruiter Lynda Purves, x62252.

Clinical Nurse IV. Neonatology. $3045-3675/mo.

Administrative Nurse III. Neurosurgical ICU. $3045-3675/mo.

Administrative Nurse III. Oncology/Hematology/Bone Marrow Transplant. $3045-3675/mo.

Administrative Nurse I. Neurosurgery. $15.94-19.21/hr.

Clinical Nurse II. Acute Medicine. $14.51-16.70/hr.

Clinical Nurse II. Neurosurgery/Neurology. $14.51-16.70/hr.

Clinical Nurse II. Pediatric Intensive Care Unit. $14.51-16.70/hr.

Clinical Nurse II. Intensive Care Nursery. $14.51-16.70/hr.

Clinical Nurse II. Neurosurgery. $14.51-16.70/hr.

Clinical Nurse II. Gyn/Urol/ENT Surgery. $14.51-16.70/hr.

Clinical Nurse II. Oncology. $14.51-16.70/hr.

Clinical Nurse II. Intensive Care Unit. $14.51-16.70/hr.

Clinical Nurse II. General Surgery. $14.51-16.70/hr.

Clinical Nurse II. Medical/Cardiology. $14.51-16.70/hr.

Clinical Nurse II. Ortho/Micro Surgery. $14.51-16.70/hr.

Clinical Nurse II. Neonatal ICU. $14.51-16.70/hr.

Clinical Nurse II. Critical Care Float Unit-Adult. $14.51-16.70/hr.

Psychiatric Inpatient Nursing

For more information on the following positions, call LPPI Director of Nursing Marilyn Rajokovich, x67361.

Administrative Nurse III. Children's Inpatient Unit. $3045-3675/mo.

Administrative Nurse III. Behavioral & Neuroscience. $3045-3675/mo.

Clinical Nurse III. Psychiatric ICU. $2645-3190/mo.

Clinical Nurse III. Behavioral & Neuro Science. $2645-3190/mo.

Clinical Nurse II. Children's Inpatient Unit. $14.51-16.70/hr.

Gearing Up for the CHARMS Conversion

To the people involved with the CHARMS project, the date May 1 has one big word written right across it: *Conversion.*

That's the date the old billing system will convert to the new. In less than 24 hours' time, the patient data from our present system will be tranferred, and—if all goes as anticipated—the CHARMS system will be plugged in by noon on Friday, May 1.

It's a little like a rocket launching. Over the past almost four years so much work has gone into developing this sleek new system, the countdown to conversion is building up plenty of anticipation among those associated with the project.

"We're ready," says Hospital Information Systems (HISD) director Ron Schumacher. "But we're not expecting to pull it off without a glich. I've never seen a conversion this complex go perfectly smoothly. There are a lot of people involved, so we're going to have be flexible, and we're going to have to keep very close communication."

There *are* a lot of people involved. From the design and development standpoint, the project includes a big chunk of the HISD staff, plus consultants from Arthur Anderson and the staff from the software company, H.B.O. & Co.

From the user standpoint, there are approximately 200 people from inpatient admissions, ER admissions, outpatient registration and the billing office who will be using the system.

What exactly will happen once the new system is up and going?

Basically, the data flow between all departments associated with patient billing will be greatly improved. As information is entered into the computer, it immediately will become available to all authorized users. When the Patient Accounts Office calls up a certain patient's file, all the information related to the patient's bill will be contained within that file.

Another important improvement brought about by the new system is the bill itself. If in the past some patients have had difficulty interpreting their bills, the product of the new system will be a statement that is much more legible and presentable.

When can we expect the first bill to roll off the new system?

"May 11," says Ron, adding, of course, "unless we run into some unforseen problem."

Mikkel Aaland

Now...if we can only figure out how to use it....*What you see here is a scene from one of the CHARMS training sessions. Currently the 200 prospective users of the new system are each undergoing two to three days of classroom training. Here, Arthur Anderson consultant Jim Highland and Julie McMillan and Diana Guevara from Patient Accounts work their way over a small stump.*

Why Did the Medical Center Get This Plaque from United Way?

Mikkel Aaland

Because our 1986 donations showed the largest dollar increase over last year of any of the 14 other participating Bay Area hospitals! So, hooray and congratulations for us, and also for 1986 United Way Med Center committee members (left to right) Richard Roginski, co-chair Diana Johnson, Inez Wieging, co-chair Gary Low and Joanne Pehkonen. Other committee members included Kathleen Brown and Helen Archer-Duste.

Welcome to Microbiology

"This is a staphylococcus culture," said lab technologist Janet Maleski (front left), as she explained the kinds of tests performed in microbiology to (left to right) Danny Parker, Kathy Mullins and Diana Kelly of the clinical labs' quality control area and Joe Speed (rear) from the department's computer center. (To the far right is Mary York, assistant chief of microbiology.)

The tour was part of the clinical labs' observation of National Medical Laboratory Week earlier this month. Each day of the week, one of the five main clinical areas of the department — microbiology, immunology, hematology, chemistry and the blood bank — took a turn putting out the welcome mat and inviting the rest of the department to come get acquainted.

Remember When the Urinary Stone Center Got 32 Penguins in the Mail?...

A few days after the 80th birthday party, they received 32 *buses* in the mail! It was those kindergarteners from the Ponderosa School again.

"Actually, they're bus books," says Gail Kay from the Urinary Stone Center. "The covers are buses, and the insides are filled with pictures of things they did at the party." (They chartered a bus for the trip from South San Francisco.)

Will these kindergarteners ever stop amazing us?

Been Thinking About a Career Change?

Call Director of Nursing Helen Ripple, x63162. She wants to meet with you personally to tell you why right now is an exciting time to become a nurse.

She doesn't care if you're male or female, 25 years old or 50. She wants to tell you about the options available, the job security, the mobility, the satisfaction and the prestige that comes with being a nurse.

Can't do it during the day? She'll be glad to make an evening appointment.

What's New in KTU? A Variety Show

Here's something to ease the TV boredom blues for your patients: On Sunday, April 26, at 7:30 p.m., Volunteer Services is sponsoring a variety show in the Kidney Transplant Unit solarium. Ann Channin will sing, Mark Flanigan will play the guitar, and Torey Stadtner will play the oboe. All patients from all wards are welcome, as well as their families and friends. Questions, call x61196.

Club (Pedi) Med Launches Virginia Duncan on a Long Vacation

Yes, after 37 years at the Med Center, Pediatrics' Virginia Duncan, LVN, has decided to go on a permanent vacation. And Club Pedi Med—6LS's social committee—decided to give her a proper send-off, with a big retirement party in the Faculty/Alumni House.

Among the faces in the crowd were some former pediatric patients—now grown up—and Dr. William Tooley, who got up and made a speech. Since he and Virginia go back to almost the same starting date, he was supposed to talk about what it was like all those years ago, when they worked together on the 5th floor H-Ward of UC Hospital. "But it's been so long," he said, "I'm beginning to forget..."

Virginia opened present after present, including some very special things, like a gold bracelet from the staff. And some practical things, like a silver goblet for drinking her Tab.

After all the speeches were made and the presents were opened, Virginia cleared her throat. "I don't know if I should recommend 37 years," she said, a little tear in her eye. "But for me, it's been good."

Just In Time for Mother's Day—The "Treasure Trove" Auction

How perfect! Mother's Day is May 10, and the Auxiliary's "Treasure Trove" silent auction of fine art and collectibles is May 6 and 7.

Thursday, May 7, is the day everyone is invited to come to the auction, no admission charged. The time is 10 a.m. to 4 p.m., and the place is the Millberry Union combined lounges.

Wednesday, May 6, is the day those who attend a plush $75-a-person cocktail party will get a sneak preview of the items. Hosted by Chancellor and Mrs. Krevans and the Auxiliary board of directors, the evening will include a buffet, wine and first crack at the goods.

What kinds of treasures can you find for your mother?

At this writing, there are paintings, prints, drawings, etchings, sculpture, ceramic, china, jewelry, tapestries, books, furniture, wine, gold, silverware, crystal...and more items are coming in every day.

There is also the opportunity to *donate* to the cause, should you or someone you know have a suitable treasure. The cause, of course, is to fund the Auxiliary's projects to benefit patients and families in the Medical Center.

Co-chairs for the event are Ada Regan and Herbert Hoover, Auxiliary board member and president, respectively; and honorary chair is San Francisco restaurateur and art collector Modesto Lanzone. For more information or tickets to the cocktail party, call x64906.

Mikkel Aaland

What sorts of treasures will you find at the "Treasure Trove?" This signed Peter Hurd print is one fine example. Another example is a portfolio of 20 winners in the 1973 World Print Competition, donated by Auxiliary Board member Harry Jackson. Want a few more examples? Go look at the display in the Moffitt lobby. (Pictured are board member Mrs. Henry J. Kaiser, Jr., and San Francisco art appraiser Kevin Sullivan.)

You Can Still Sign Up for "Spend a Day"!

If you forgot to sign up for the "Spend a Day" program during the first two weeks of May, here's a second chance. The sign-ups for May 11 through 15—when you can "Spend a Day" in a Medical Center department other than nursing—have been extended through Tuesday, April 28. Look for a list of participating departments on the bulletin board in your own department, pick a first and second choice, and then call x61401 to see if they can fit you in.

For those who already have signed up, you will be getting a confirmation notice soon—if you haven't already.

If you forgot what "Spend a Day" is all about, this is for you: In conjunction with National Nurse's Day, Wednesday, May 6, and National Hospital Week, May 10-16, employees have the opportunity to "Spend a Day" (actually an hour) in a department other than their own. During the week of May 4 through 8, the nursing departments are playing host, and the following week, all other participating Med Center departments.

The idea? Meet new people, get acquainted with what happens in other departments, figure out how one department relates to another, and have fun.

Jim Fink Won the Silverado Trip

As was the case for everyone who volunteered to help with the 80th birthday party, when Respiratory Care manager Jim Fink signed up, his name went into the hat for a chance to win a weekend for two at the Silverado Country Club in Napa Valley.

And when the winning name was drawn at the Founder's Day staff appreciation party, it was Jim's ticket that got picked!

"I can't think of anyone more deserving," says an anonymous source in administration. "No matter what the event, he's always the first to volunteer, and the last to leave."

If you were among the hundreds of popcorn purchasers that day, then you saw Jim. His popcorn was selling like hotcakes.

Will UCSF Keep the May Day Title?

Remember that wonderful moment at the end of the May Day Run awards ceremony last year—when they said, "....And first place goes to...UCSF!" And then everyone on the team jumped up and down and hooted and hollared, and hugged the person next to him...

Well, it's time to do that again. This year's American Heart Association May Day Run will take place on Sunday, May 10. The course will be the same as last year—a 5K or 10K run beginning at 9 a.m. at the Polo Field in Golden Gate Park. You can pick up your sponsor forms and entry blanks at L 1057 or L 171 and turn them back in at the same locations.

Don't think you have to be a champion runner to take part. If you're a little out of shape, but like this sort of thing, count yourself in. You won't drag down the team. They base the winning score on the times of the top runners in certain categories. So you can even walk the course if you want—several people did last year! Or you may want to forget the running and come be a cheerleader.

Call team captain Brigid Doyle, x65429, or Elaine Shanahan, x62252, for more information.

It's True: The Med Center Was Full of Giants

Mikkel Aaland

All 30 team members were here, as a matter of fact, visiting patients and bearing gifts. They were a major hit (so to speak) on the pediatrics floor, where some small patients—like Jason Byrn of Santa Rosa (right front)—made a special trip back to the hospital just to see their favorite team. Other big fans included Tamara Berry of Los Banos (center), Brian McLean of Modesto (left), Joan Kazerounian of Child Life Services (left rear) and 6 L Medicine head nurse Debbie Trevithick. Their two Giant friends are #55 Mark Grant and #51 Jim Gott.

Night Food Service Coming Right Up

Remember, if you work nights and you show up at the San Francisco Room between 7:30 p.m. and 2:30 a.m. on or after May 1, the cafeteria will be open, and they will be serving soup, salad, burgers, sandwiches and dessert.

New Post for Bill Rainford

"He's a mover and a shaker," is how one staff member describes Bill Rainford, the newly appointed director of Computer Services, Hospital Informations Systems Department (HISD).

If you're an employee in radiology or the lab or any other clinical department relying heavily on computers to process patient information, you have reason to agree with the above.

"Since Bill arrived a year ago as Computer Operations Manager," says Med Center associate director Ron Schumacher, "he has revamped the computer center in ACC. It's been a combination of rewiring, acquiring new equipment, bringing on new staff....The result has been a much more reliable system."

So if you've been pleased to find greater stability in the clinical systems over the past months, you have Bill (and his staff, of course) to thank.

Bill was a private consultant in computer center management and security before joining the Med Center staff. Since February of this year he served as acting director of Computer Services, and assumed the directorship April 1.
